INDEX TO PHOTOGRAPHS
(Page 2)

- CO-01-10 Block 1. Photograph depicts close up view (eastern side) of working fountain on Block 1 and reveals how the water flowed through the fountain.
- CO-01-11 Block 1. Photograph shows general view of the southern portion of the fountain and the surrounding vicinity.
- CO-01-12 Block 1. Photograph shows general view of the northern portion of the fountain and the surrounding vicinity.
- CO-01-13 Block 1. Photograph shows general view of the northern base of the fountain and the surrounding vicinity.
- CO-01-14 Block 1. Photograph depicts a close up view of the eastern side of the fountain on block 1.
- CO-01-15 Block 1. Photograph represents general view taken from the base of fountain towards the May D&F Tower. Photograph includes vertical light structure with drinking fountain, berms, trees and shrubs, and benches that are placed within northern half of Block 1.
- CO-01-16 Block 1. Photograph represents general view taken from the base of fountain towards the May D&F Tower. Photograph includes vertical structure with drinking fountain, berms, trees and shrubs, and benches that are placed within northern half of Block 1. Photograph includes full façade of May D & F Tower.
- CO-01-17 Block 1. Photograph depicts close up view of northern side of the fountain on Block 1.
- CO-01-18 Block 1. Photograph portrays general view of designated seating area at mid point of block 1 and illustrates poor maintenance of vegetation within the park.
- CO-01-19 Block 1. The photograph shows a general view of the midsection of Block 1 in the southeast direction. It reveals berms, benches and wall seats within the park
- CO-01-20 Block 1. Photograph represents general view taken from the middle of block 1 towards the southern boundary of park. Photograph portrays berms and shrubs, building façade on western boundary of the park and water feature within block 1.

(Page 3)

- CO-01-21 Block 1. Photograph illustrates the public gathering space on block 1 and a building that borders the northwestern side of the block.
- CO-01-22 Block 1. Photograph shot from within public gathering space towards the northwest entrance of Block 1 and depicts stair entrance to the block. The base of the May D & F Tower is in the background.
- CO-01-23 Block 1. Photograph shot from the northern pedestrian entrance of Block 1 and depicts berms, seat walls, trees and public gathering space.
- CO-01-24 Block 1. Photograph represents general view taken from the midsection of Block 1 towards the southern boundary of the park. Photograph depicts designated seating area, berms and shrubs, vertical light features and a fountain. In addition, photograph shows a partially damaged concrete structure.
- CO-01-25 Block 1. Photograph shot from the northwest pedestrian entrance of Block 1 and it depicts a public gathering space and a fountain.
- CO-01-26 Block 1. Aerial Photograph taken from the top of the May D & F Tower and depicts the entire Block 1. Photograph shows the two public gathering spaces, a mid-section designated seating area and the fountain. In addition, the photograph shows an exit from underground public parking off eastern side along the street front.
- CO-01-27 Block 1. Aerial view taken looking northwest from Independence Tower Photograph depicts fountain and designated seating area within Block 1 and shows the design and spatial sequence of the block.
- CO-01-28 Blocks 1 and 2. Aerial view to the northwest, taken from Independence Tower, depicts the May D & F Tower and the eastern portion of Block 1. Photograph includes context of surrounding streets and buildings.
- CO-01-29 Block 1 and 2. Aerial view taken from Independence Tower and depicts the entire Block 1 and southern base of Block 2. Photograph includes close-up view of May D & F Tower and the surrounding setting.
- CO-01-30 Block 2. Aerial Photograph taken from the top of the May D & F Tower and depicts the entire Block 2 Photograph shows the two public gathering spaces on the northern and southern sides of block, a midsection and the fountain. In addition, photograph shows maintenance structure next to street.

- CO-01-42 Block 2. Aerial view taken from Independence Tower and depicts view of main gathering space directly north of the May D & F Tower.
- CO-01-43 Block 2. Photograph shows general view from midsection towards the northern boundary of Block 2. Photograph depicts vertical structures, berms, trees and benches.
- CO-01-44 Block 2. Photograph shows close up, western view of the fountain on Block 2. In addition, photograph includes two light features that are situated along the western side of the fountain.
- CO-01-45 Block 2. Photograph depicts close up of stair wall, which is located opposite of the fountain on block 2. Photograph reveals the porous quality of the concrete used within the park.
- CO-01-46 Block 2. Photograph shows close-up, southern view of the fountain on Block 2.
- CO-01-47 Block 2. Photograph shows general view across from fountain towards northern side of Block 2 and includes northern corner of fountain, and the two pedestrian entrances to Block 2.
- CO-01-48 Block 2. Photograph shows general view opposite the fountain looking towards the middle section of Block 2 and depicts close up view of a stair wall.
- CO-01-49 Block 2. Photograph taken from western side of Block 2 and reveals general view of the northern portion of Block 2 and includes a small portion of the fountain shown in lower right of photograph
- CO-01-50 Block 2. Photograph shows general view from the northwestern corner of Block 2 and includes a close up view of the fountain.
- CO-01-51 Block 2. Photograph shows general view from the northern side towards midsection of block 2 and includes northern view of the fountain.
- CO-01-52 Block 2. Photograph depicts general view of Block 2 from northern pedestrian entrance to Block 2 towards the May D & F Tower.
- CO-01-53 Block 2. Photograph depicts general view of Block 2, fountain and the May D & F Tower from the northern pedestrian entrance. In addition, photograph includes a Skyline Park entrance sign.

(Page 6)

- CO-01-54 Block 2. Photograph shows the view from pedestrian entrance in towards fountain and includes close up view of the entrance light feature.
- CO-01-55 Block 2. Aerial view taken from Independence Tower and depicts the north half of Block 2 with the fountain.
- CO-01-56 Blocks 2 and 3. Aerial view taken from the top of Independence Tower (southern side of Arapahoe Street) depicts the north half of Block 2 with the fountain.
- CO-01-57 Block 3. General view of pedestrian entrance displaying a light feature near the eastern entrance of park.
- CO-01-58 Block 3. Photograph shows general view of the walkway that aligns with the western building facades. Photograph is taken from the pedestrian entrance and shows benches and light features.
- CO-01-59 Block 3. General view of the northwest pedestrian entrance of Block 3 demonstrating the change in grading throughout the park and the change in building materials (brick and concrete). Photograph exhibits stair walls, berms and trees.
- CO-01-60 Block 3. Northern view observed from within central portion of Block 3. Photograph exhibits a vertical structure, stair walls, berms and trees.
- CO-01-61 Block 3. Southeastern view observed from within central portion of Block 3. Photograph reveals the change in grade along the central path, light fixtures built within the vertical walls at ground level along ramps and entrances.
- CO-01-62 Block 3. Southeastern view observed from within central portion of Block 3. Photograph exhibits stair walls, berms and trees.
- CO-01-63 Block 3. Southeastern view towards the May D & F Tower observed from within central portion of Block 3. Photograph exhibits stair walls, berms and trees.
- CO-01-64 Block 3. This photograph depicts the northern view of Block 2 towards the May D & F Tower from the main path along the western facades.
- CO-01-65 Block 3. Southern view observed from within central portion of Block 3. Photograph exhibits stair walls, berms and trees. This photograph illustrates the use of brick and concrete treatment designs for the walkways throughout the park.
